We've Made it!

Term 1 is done and dusted. We've had an amazing term of learning and lots of activities. We've welcomed a new student, Chase, and our new wellbeing staff member, Simon. This week we've had the Auskick clinic after school, and today we joined in some Easter activities with the kinder. We'll be having more shared activities with the kinder throughout the year.

Traffic Safety

Please take the time over the school holidays to teach your children the basic road safety rules. The following information comes from the 'Raising Children' website and is essential reading for all parents. <https://raisingchildren.net.au/toddlers/safety/car-pedestrian-safety/pedestrian-safety>

Pedestrian safety and road safety for kids

Until the age of 11-12 years, children need active adult supervision to help them safely navigate driveways, cars, roads and car parks. Even children who seem to know all the road safety rules won't necessarily remember to follow them.

Always holding your child's hand when around cars is a great first step. You can also teach your child about road safety, including how to be safe around parked cars and on footpaths and driveways. Your child will learn about pedestrian safety by watching you, so use safe behaviour around cars, roads, footpaths and car parks. For example, always stop, look, listen and think before crossing a road, and use pedestrian crossings wherever possible. Always cross at the safest point, even if you have to walk further out of your way. If you're crossing at the lights, wait for the green signal. And put away phones and other devices when you're walking around roads and cars.

A top tip for helping children learn about pedestrian safety and road safety is to describe what you're doing each time, so your child can understand why it's important.

Enjoy the holidays!

Make sure you have a safe and enjoyable term break, and we will see you all on Wednesday 26th April.

PLACE VALUE SHEET

We have been learning about 'place value' in Maths this term. It's so important to have a deep understanding of place value in order to move on to other concepts like double-digit addition and subtraction with regrouping. We spent about two weeks on tens and ones and another two weeks on hundreds.

To finish off the unit we read 'The Three Little Pigs' and made houses out of MAB to demonstrate our understanding of place value. We discussed odd and even numbers and ordered our houses from biggest to smallest, using what we know about hundreds, tens and ones.

Check out our Place Value Street display!

Something to do in the Holidays!

VCES School Holiday Program!

This Autumn holidays Discovery will be hosting hands-on workshop sessions for high-ability students and those seeking extension in Grades 3-6. Workshop sessions run for 90 minutes and are designed to be fun and engaging combining invention, design and creativity skills. Exploring Coding and robotics in an environmental framework. Students will work with Micro:Bits sensors and programming to de-code and create mystery messages.

Discovery are pleased to be able to offer the sessions for **FREE** for any students in Grades 3-6 from a Victorian Government school that supply the contact details of a nominating teacher. Other students may participate at a cost of \$15 per head.

Parents are welcome to stay for the class.

This program is provided thanks to the Department of Education and Training
